

Dominion Energy Ohio's Home Performance with ENERGY STAR® Program Overview

Enjoy a more comfortable, more energy-efficient home with rebates up to \$1,250.

Dominion Energy Ohio's Home Performance with ENERGY STAR Program takes a comprehensive approach to help boost your home's comfort and long-term value, while keeping your energy bills in check. Starting with a home energy assessment, your entire home will be evaluated as one interconnected system to understand exactly how it's using—and wasting—energy.

Along with **FREE energy-saving products and recommendations**, we'll help you take advantage of the great rebates available through Dominion Energy Ohio's Home Performance with ENERGY STAR Program.

Three easy steps to bring home the savings.

STEP 1: The home energy assessment

We'll send an energy advisor to conduct a thorough assessment of your home's energy efficiency.

Home energy assessments typically take 2–4 hours and cost \$450–500; however, the assessment cost is substantially discounted to encourage you to make energy efficient improvements. As a bonus, you'll also receive **FREE** energy-saving products and installation (a \$100 value). Contact us for current pricing.

STEP 2: Review the results and take action

Following the assessment, you'll receive a customized report with recommendations on how to lower your energy bills and improve your home's comfort. Recommendations may include:

- Adding insulation
- Eliminating drafts through air sealing
- Upgrading heating equipment
- Replacing windows and doors

STEP 3: Make improvements and receive rebates

Before leaving your home, our energy advisor will provide you with a list of participating contractors and guide you through the rebates available for each project.

Program benefits:

- Work performed by qualified contractors
- Potential savings on energy bills
- Fewer drafts and more comfortable rooms
- Improvements may increase the long-term value of your home

FREE energy-saving products (a \$100 value)

Your home energy assessment comes with a variety of products to help make your home more energy efficient, including:

- High efficiency showerheads
- Kitchen and bathroom faucet aerators
- Programmable thermostat OR carbon monoxide detector
- Water heater pipe wrap

Who's eligible?

Participation in the Home Performance with ENERGY STAR Program is available for qualified Dominion Energy Ohio residential customers with an active account and an individually metered residence. For a full list of participation qualifications, go to www.deohpwes.com.

Let the savings begin.

Call **877.287.3416** to schedule your home energy assessment, or visit deohpwes.com for details and eligibility requirements.

Program administered by
CLEAResult®

The Dominion Energy Ohio Home Performance with ENERGY STAR Program is offered on a first-come, first-served basis and is available until annual funding is expended or the Program is discontinued by the Public Utilities Commission of Ohio. The Program is funded by Ohio utility customers and is administered by CLEAResult, on behalf of Dominion Energy Ohio.
